By working together in small groups (2 - 4 students) with learners of a similar age, level of English and professional or academic background they are able to negotiate course content with their Tutors each week. This ensures that students only learn what is relevant and necessary for their future development and that no time is wasted on topics or language that they will never need.</p> <p>The Spoken Assertiveness Workshop takes place in groups of up to 8 students and focuses on successful spoken communication.</p>
